## **Alien Skin Software Releases Macintosh Universal Plug-ins**

**Raleigh, NC (April 17, 2007)**—Alien Skin Software today released Macintosh Universal updates for all their Photoshop plug-ins: Snap Art, BlowUp, Exposure, Eye Candy 5: Textures, Eye Candy 5: Nature, Eye Candy 5: Impact, Xenofex 2, Image Doctor, and Splat!. These updates are compatible with the upcoming Photoshop CS3 release from Adobe Systems, Inc. Alien Skin's Universal plug-ins provide a significant performance increase on Intel-based Macintosh computers.

**Pricing and Availability:** Registered users may receive free updates for any Alien Skin plug-ins purchased on or after January 1, 2007. Contact Alien Skin directly for more information. All other customers may purchase updates at \$19.99 each for up to three titles; additional titles beyond three are free of charge. Updates may only be obtained directly from Alien Skin, and free online delivery is available at the Alien Skin website: <http://www.alienskin.com>.

**Requirements:** Macintosh Universal updates are designed for Photoshop CS3 users running Intel-based Macs. Full compatibility details for all Alien Skin plug-ins are listed on their respective product pages at <http://www.alienskin.com>

**Company Information:** Makers of award-winning plug-ins since 1994, our reputation for bug-free software and fast, friendly tech support has grown worldwide throughout the years. Alien Skin continues to write and sell filters that users love.
